
To the Dharmacharyas

Namaskaaram and Pranaam:

I believe that the world situation is at a critical juncture in which Sanatana Dharma will be central in showing the way ahead for all mankind.

Hindu jatis drew inwards and isolated themselves during periods of travail. I believe the time has come to declare unequivocally that all jatis are equal in all ways in receiving initiation into Vedic wisdom and in this there is no disability based on community of birth and gender.
